River forcing, 2005–2023

Discharge and upstream DOC (as TOC), the full 19-yr full-forcing window (see 1b for every other forcing, also genuinely multi-year here).

Source: tools/build_interannual_forcings.py, sliced to the full-forcing window (2005-2023) from Michael's daily PWBM product. No new model run needed for this figure.
